

News on EMLTD

European and Mediterranean League against Thrombotic Diseases

President's corner - Alexandros Tselepis

Dear Colleagues and Friends

The European and Mediterranean League against Thrombotic Diseases (EMLTD) makes any possible effort to convey to you the recent advances on thrombosis and antithrombotic therapies, by organizing webinars as well as through its e- Newsletters. However, the major EMLTD scientific activity is its biannual International Congress on Thrombosis (ICT), which has been widely recognized as an event of major scientific impact. The ICT2023, will be held in Lisbon, June 01-03, and it is my great pleasure and privilege to invite you to actively participate in this great scientific event. The present Newsletter is exclusively dedicated to ICT2023 and provides you useful information for this very important scientific activity of EMLTD.

Editor's corner - Joao Morais

The 28th International Congress on Thrombosis is coming soon. Lisbon will be the capital of thrombosis in June for three days. A great programme is being prepared, just released in our [website](#). This programme was built with the contribution of all members of the Scientific Committee as well with the collaboration of Country Councilors of EMLTD.

The platform for submission of **abstracts** is open ready to receive your original research. Basic, translational and clinical research, as well as clinical trials and clinical cases, all will be well received.

Pharmaceutical and device companies are being invited to sponsor the congress and to give their contribution preparing satellite activities.

Lisbon is a lovely city and one of the best places in Europe for tourists offering you a lot of wonderful historical and cultural places deserving a visit. Please don't forget to **register** and to call the attention of your collaborators in order to put our congress in the list of activities for the current year.

Joao Morais and Gemma Vilahur | Chairpersons of ICT 2023

Call for abstracts

Deadline for submissions:

April 23, 2023
