

# Final programme

June 1, 2023

14:30 – 16:10

## Manhattan

### Update in cancer-associated thrombosis (CAT)

Moderator: João Morais  
(Portugal)

### Extracellular vesicles in CAT pathogenesis

Elena Campello (Italy)

### NOACs or LMWH for cancer-associated VTE

Benjamin Brenner (Israel)

### Assessment of bleeding risk

Ricardo Pinto (Portugal)

## Broadway

### Emerging technologies and thrombosis

Moderator: Gemma Vilahur  
(Spain)

### What have we learned from GWAS studies on hemostatic factors (30')

María Sabater (Spain)

### Circulating miRNAs in the pathophysiology of atherosclerosis and thrombosis (30')

Teresa Padró (Spain)

### OR-21 Defective fibrinolysis driving hemostatic challenges (15')

Ana Durães (Portugal)

**Tailoring anticoagulation  
beyond six months**

Carmen Font (Spain)

**OR-22 Red blood cell  
exchange therapy in sickle cell  
anemia: Stroke prophylaxis  
(15')**

Rita Bernardino (Portugal)

16:10 – 16:30

Coffee break, Exhibition & E-posters

**Dilemmas in antithrombotic  
treatment**

Moderator: Antonio Moscardó  
(Spain)

**Thrombosis, immunity and  
inflammation**

Moderator: Teresa Padró (Spain)

16:30 – 17:30

**Is there a place for P2Y12 pre-  
treatment in STEMI?**

Eduardo Oliveira (Portugal)

**DIC a thrombotic  
microangiopathy in sepsis  
and COVID-19 (30')**

Vilma Grilo (Portugal)

**Antithrombotic treatment  
beyond the first year of ACS**

Andrea Rubboli (Italy)

**Future development on  
antithrombotic treatment:  
new options for  
improvement (30')**

Gemma Vilahur (Spain)

**Thrombotic and bleeding risk  
in CAR-T cell therapy**

Mertixell Nomdedéu (Spain)

**Opening session. Welcome  
address**

17:30 – 17:45

João Morais (Portugal)  
Gemma Vilahur (Spain)  
Alexandros Tselepis (Greece)

17:45 – 18:45

**Laboratory measurements of  
platelet function and NOACs**

Moderator: Luciana Gonçalves  
(Portugal)

**What the clinicians should  
know about infections**

Moderator: Francisco Araújo  
(Portugal)

**Guided anti platelet therapy in  
patients undergoing PCI**

Marco Cattaneo (Italy)

**Soluble Biomarkers of  
thrombosis in covid-  
19**

Antonella Tufano  
(Italy)

**Laboratory testing in patients  
treated with NOACs**

Eugénia Cruz (Portugal)

**The interplay between  
inflammation and thrombosis  
in COVID-19**

Melanie Ferreira (Portugal)

**OR-25 Reducing variability in  
light transmission**

**aggregometry: The role of  
internal quality control and  
laboratory outcomes (10')**

Ma José Marques (Portugal)

**Sepsis, thrombosis and organ  
dysfunction**

Vittorio Pengo (Italy)

**OR-27 Effect of EPA, DOACs  
and their combination on  
platelet activation (10')**

Alexandros Tselepis (Greece)

# Final programme

**June 2, 2023**

## Morning sessions

	<b>Manhattan</b>	<b>Broadway</b>
<b>08:30 – 10:00</b>	<p><b>Moderated posters “Clinical Research”</b> Moderator: Luis Jara Palomares (Spain)</p>	<p><b>Moderated Posters “Basic and Translational Science”</b> Moderator: António Róbaló Nunes (Portugal)</p>
<b>10:00 – 11:00</b>	<p><b>Managing antithrombotic therapy in challenging scenarios</b> Moderator: Daniel Caldeira (Portugal)</p>	<p><b>New concepts, new options, new targets for treatment</b> Moderator: Vittorio Pengo (Italy)</p>
	<p><b>Anticoagulation in mesenteric thrombosis</b> Luis Jara Palomares (Spain)</p>	<p><b>The power of antiplatelet agents to target the infarcted heart: Potential role beyond thrombosis (25’)</b> Gemma Vilahur (Spain)</p>
	<p><b>Indications for endovascular management in VT</b></p>	<p><b>Factor XI in arterial disease (25’)</b></p>

João Valença (Portugal)

Bianca Rocca (Italy)

**Patients with cancer at risk of thrombocytopenia**

Sérgio Barroso (Portugal)

**OR-28 Platelets Dysfunction as a Potential Marker of Severity in Pulmonary Embolism Patients (10')**

Simão Carvalho (Portugal)

11:00 – 11:30

Coffee break, Exhibition & E-posters

**Thrombotic diseases in the paediatric age**

Moderator: Teresa Padró (Spain)

**The different faces of thrombosis**

Moderator: Fernando Sá (Portugal)

**Thrombophilia causing in utero thrombosis: What's new? (25')**

Teresa Sevivas (Portugal)

**Thrombosis in Hemoglobinopathies**

Ana Freixo (Portugal)

11:30 -13:00

**Anticoagulant treatment of paediatric patients (25')**

Maria João Palare (Portugal)

**Cancer-associated pulmonary embolism**

Carme Font (Spain)

**OR-23 "In utero" thromboembolic events and diagnosis of factor V Leiden (10')**

Liliana Fonseca (Portugal)

**Antineoplastic treatment modalities: Effects on coagulation**

Ismail Elalamy (France)

**Antiphospholipid syndrome**

Vittorio Pengo (Italia)

13:00 – 14:00

**Thrombosis now and tomorrow: Innovating for better future**

Moderator: João Morais (Portugal)

**Symposium & Lunch Sponsored by**

**Factor Xa inhibition – A journey of**

**innovation**

Cristina Gavina (Portugal)

**Exploring the future of thrombosis with factor XI**

**inhibition**

Valeria Caso (Italy)

**Afternoon sessions**

**Manhattan**

**Broadway**

**14:00 – 14:30**

**Main Lecture**

**“JOSÉ ANTONIO IRIARTE”**

Moderator: Alexandros Tselepis  
(Greece)

**Main lecture**

**“PERSONALIZED MEDICINE”**

Moderator: Gemma Vilahur  
(Spain)

**Precision medicine in cardiology. Are we in the right track?**

Lina Badimon (Spain)

**Personalized medicine in thrombosis**

Bianca Rocca (Italy)

**14:30 – 16:00**

**Inherited thrombophilias**

Moderator: João Morais  
(Portugal)

**The fine balance between thrombosis and bleeding**

Moderator: Ismail Elalamy  
(France)

**Thrombophilia testing in daily practice: Who and when?**

Francisco Araújo (Portugal)

**Pregnancy and need for anticoagulation**

Farjah AlGahtani (Saudi Arabia)

**How the molecular diagnosis can help you?**

Teresa Fidalgo (Portugal)

**Reversal agents, new developments**

Luciana Gonçalves (Portugal)

**OR-29 Thrombophilia assessment during arterial thrombosis (10')**

Sarah Boughanmi (Tunisia)

**Anticoagulation and bleeding in ECMO**

Ana Rita Rodrigues (Portugal)

**16:00 – 16:30**

Coffee break, Exhibition & E-posters

**Practical session: How to do it**  
Moderator: Bianca Rocca (Italy)

**Tips and tricks for the young investigator**

Moderator: Alexandros Tselepis (Greece)

**16:30 – 17:30**

**How long should we treat children with DVT?**

Anabela Ferrão (Portugal)

**The perspective of a basic-translational scientist**

Gemma Vilahur (Spain)

**Aspirin in the primary prevention setting**

João Morais (Portugal)

**The perspective of a clinical-laboratory approach**

Teresa Fidalgo (Portugal)

**17:30 – 18:30**

**Case Based Session I**

Moderator: Sérgio Barroso (Portugal)

**Case Based Session II**

Moderator: Farjah AlGahtani (Saudi Arabia)

**18.30**

EMLTD General Assembly

# Final programme

**June 3, 2023**

## Morning sessions

	<b>Manhattan</b>	<b>Broadway</b>
<b>08:30 – 10:00</b>	<p><b>Oral presentations</b> Moderator: Luciana Gonçalves (Portugal)</p>	<p><b>Young Investigator Awards</b> Moderator: João Morais (Portugal) &amp; Gemma Vilahur (Spain)</p>
	<p><b>Main lecture “MICHEL SAMAMA”</b> Moderator: João Morais (Portugal)</p>	<p><b>Core Curriculum Session Deep vein thrombosis and pulmonary embolism</b> Moderator: Andrea Rubboli (Italy)</p>
<b>10:00 – 11:00</b>	<p><b>Thrombosis in women: Gender differences</b> Alexandros Tselepis (Greece)</p>	<p><b>VTE and pregnancy</b> Matija Kozak (Slovenia)</p> <p><b>Catheter-directed therapies for the treatment of pulmonary embolism</b> Rita Calé (Portugal)</p>
<b>11:00 – 11:30</b>	Coffee break, Exhibition & E-posters	

**Systemic thrombosis, old and new players**

Moderator: Lina Badimón (Spain)

**New targets, new concepts, new objectives**

Moderator: Ana Bronic (Croatia)

**NETS and thromboinflammation**

Teresa Padró (Spain)

**Factor XI a new target for antithrombotic therapy**

Vittorio Pengo (Italy)

**Erythrocytes: New and old players in thrombosis**

Antonio Moscardó (Spain)

**Risk of thrombosis in pediatric patients with inflammatory bowel disease**

Jorge Amil (Portugal)

11:30 – 13:00

**OR-10 Study of the antiplatelet efficacy of red yeast rice and tomato juice extract in vitro (10')**

Despoina Pantazi (Greece)

**OR-24 Effect of long-term storage and freeze-thawing cycles on urinary thromboxane A2 metabolite and isoprostanes (10')**

Giovanna Petrucci (Italy)

**Left atrial appendage closure for stroke prevention**

Eduardo Oliveira (Portugal)

**OR-30 Gender-based disparities in clinical and procedural outcomes after rotational atherectomy (10')**

Mariana Carvalho (Portugal)

13:00 – 14:00

Lunch

**Afternoon sessions**

**Manhattan**

**Broadway**

**Meet the scientist**

Moderator: Andrea Rubboli  
(Italy)

**Let's talk about TTP: An  
iberian collaboration for the  
diagnosis and follow-up of this  
rare disease**

Moderator: Teresa Fidalgo  
(Portugal)

**14:00 – 14:30**

**From initial suspicion to long-  
term follow-up? (10')**

José Pedro Carda (Portugal)

**What I'm doing in my lab**

Lina Badimon (Spain)

**Diagnosis and clinical  
practice. The role of registries  
and the sharing of  
experience (20')**

María Eva Mingot (Spain)

**Core Curriculum Session  
Bleeding “the dark side of the  
moon”**

Moderator: Matija Kozak  
(Slovenia)

**Managing antithrombotic  
therapy in challenging  
scenarios II**

Moderator: Carme Font (Spain)

**Monotherapy after acute  
coronary syndromes. Less is  
more?**

Andrea Rubboli (Italy)

**Mechanical valve prosthesis  
and major bleeding**

Cristina Gavina (Portugal)

**14:30 – 16:00**

**Management of novel oral  
anticoagulants in emergency  
and trauma surgery: Peri-  
operative considerations and  
controversies**

Ana Bronic (Croatia)

**Transcatheter valve  
replacement in the very old  
population**

Lluís Asmarats (Spain)

**Bleeding Risk Assessment in  
end-stage kidney disease**

Daniel Caldeira (Portugal)

**Invasive procedures in  
patients with high bleeding  
risk**

Fernando Sá (Portugal)

**16.00**

Closing session and awards
